CAUTIONARY STATEMENTS:

This material contains forward-looking statements pertaining to strategies, financial targets, technology, products and services, and business performance of NEC Corporation and its consolidated subsidiaries (collectively "NEC"). Written forward-looking statements may appear in other documents that NEC files with stock exchanges or regulatory authorities, such as the Director of the Kanto Finance Bureau, and in reports to shareholders and other communications. NEC is relying on certain safe-harbors for forward-looking statements in making these disclosures. Some of the forward-looking statements can be identified by the use of forward-looking words such as "believes," "expects," "may," "will," "should," "seeks," "intends," "plans," "estimates," "targets," "aims," or "anticipates," or the negative of those words, or other comparable words or phrases. You can also identify forward-looking statements by discussions of strategy, beliefs, plans, targets, or intentions. Forward-looking statements necessarily depend on currently available assumptions, data, or methods that may be incorrect or imprecise and NEC may not be able to realize the results expected by them. You should not place undue reliance on forward-looking statements, which reflect NEC's analysis and expectations only. Forward-looking statements are not guarantees of future performance and involve inherent risks and uncertainties. A number of important factors could cause actual results to differ materially from those in the forward-looking statements. Among the factors that could cause actual results to differ materially from such statements include (i) global economic conditions and general economic conditions in NEC's markets, (ii) fluctuating demand for, and competitive pricing pressure on, NEC's products and services, (iii) NEC's ability to continue to win acceptance of NEC's products and services in highly competitive markets, (iv) NEC's ability to expand into foreign markets, such as China, (v) regulatory change and uncertainty and potential legal liability relating to NEC's business and operations, (vi) NEC's ability to restructure, or otherwise adjust, its operations to reflect changing market conditions, (vii) movement of currency exchange rates, particularly the rate between the yen and the U.S. dollar, (viii) the impact of unfavorable conditions or developments, including share price declines, in the equity markets which may result in losses from devaluation of listed securities held by NEC, and (iv) impact of any regulatory action or legal proceeding against NEC. Any forward-looking statements speak only as of the date on which they are made. New risks and uncertainties come up from time to time, and it is impossible for NEC to predict these events or how they may affect NEC. NEC does not undertake any obligation to update or revise any of the forward-looking statements, whether as a result of new information, future events, or otherwise.

The management targets included in this material are not projections, and do not represent management's current estimates of future performance. Rather, they represent targets that management will strive to achieve through the successful implementation of NEC's business strategies.

Finally, NEC cautions you that the statements made in this material are not an offer of securities for sale. Securities may not be offered or sold in any jurisdiction in which required registration is absent or an exemption from registration under the applicable securities laws is not granted.

Empowered by Innovation
NEC Semiconductor Business

<Position>
- Favorable position over competitors as NEC has common technologies and a strong customer base across IT, networks and semiconductors.
- Ubiquitously linked network requirements for unified systems, solutions and semiconductors.
- Secure orders through an integrated NEC group (including NEC Corp. and NECEL) approach to customers.

<Basic Policy>
As NECEL’s largest shareholder, NECEL’s performance has significant impact NEC’s results. Substantial reform is now required of NECEL and the semiconductor business.
NEC’s Environment and Energy Business

<Position>

- The car battery business of NEC TOKIN is important for our approach to environmental business and realizing the NEC group’s philosophy and vision for 2017
- Examine every measure of NEC TOKIN business in order to select & focus on capital efficiency

<Basic Policy>
Stabilize NEC TOKIN’s management base, and swiftly decide and execute the strategic measures of the NEC group
② Profitability Reform

- Structural improvement to meet NEC Group Vision 2017
  - Organizational integration, reduction and functional optimization of the NEC group through efficient use of management resources
  - Reduction of SG&A, procurement costs, outsourcing costs etc.
  - Reduction of compensation for officers and managers
  - NEC group work force reduction of over 20,000 (including outsourced work forces)
    - Reduction at poorly performing group companies
    - Reduce outsourcing through increased in-house development
Management Reform for FY10/3

Severe external environment continues or worsens
FY10/3 will pose unprecedented challenges for NEC
(The year for innovative NEC group practices to reach our vision and realize our values)

① Business structure reform
② Earnings structure reform

Fulfillment at once

IT/NW Solutions Business

(Billions of Yen)

- **Sales: 2,750 (-4.1%)**
  - **IT Service/SI:** Expectations remain flat considering the risks of a rapid downturn of IT investment. Apparent suppression of investment, especially in financial, manufacturing and communications.
  - **IT Products:** Expected decline due to the slipping economy and business PC and server investment.
  - **Network Systems:** Expected decline of sales due to cutbacks in CAPEX both from mobile operators in Japan and general enterprises. Steady growth in NGN related business.

- **Operating Income: 111 (-49.6%)**
  - **IT Service/SI:** Flat expectations due to strict project management and fierce price competition
  - **IT Products:** Expected growth in high profit products Recognized R&D costs (next generation servers)
  - **Network Systems:** Forecast profit decrease from sales declines and the impact of the stronger yen
