Experience future possibilities

Here, we can see, listen, and experience world top level solutions in various ways. With actual experiences, we can feel a concrete image of various technologies giving us new possibilities to solve customers' problems.

Know cutting-edge technologies

We present various AI and IoT technologies that innovate businesses and societies. In addition to the latest solutions, we introduce information that will give hints to our customers regarding cutting-edge technologies and trends.

NEC Innovation World
A showroom where we can consider creating the future together

Create new value together

We are promoting co-creation of new value with our customers by thinking about various social problems, and integrating knowledge and experience. Surely, various ideas will be borne by looking at and experiencing the latest technologies in the showroom.
