

The focus of our latest innovation: A lighter and brighter future for your business.

As a global leader in IT and networking integrated solutions, NEC is constantly looking for new ways to empower you through innovative business solutions.

Our extensive know-how has inspired a new mobile projector that's the lightest and brightest in its class anywhere in the world.

These kinds of innovations keep us on the cutting edge of technology. And reinforce our reputation as a dependable partner in business. With this projector, business meeting will be more effective and productive.

It's yet another instance of how NEC empowers people through innovation.
