**【Views and Policy on Group Management】**

Based on the NEC Group Management Policy, which forms the basis for group management, the Company strives to maintain a uniform framework for the management of its subsidiaries while working to reinforce intergroup functions in order to optimize overall the management of the NEC Group and maximize the value of the NEC Group.

**【Significance of Owning Publicly Listed Subsidiaries and Measures for Ensuring the Effectiveness of the Governance Systems of Those Subsidiaries】**

NEC Networks & System Integration Corporation (NESIC) and Japan Aviation Electronics Industry, Limited (JAE) (collectively, the “Publicly Listed Subsidiaries”), both subsidiaries of the NEC Group, are listed on the Tokyo Stock Exchange. Under the precondition that the strategies of the NEC Group are shared with the Publicly Listed Subsidiaries, the division of functions between the Publicly Listed Subsidiaries and
the Company is clarified (to eliminate overlapping businesses), and the business foundation of the NEC Group can be strengthened through mutual utilization of management resources, the Company has determined that allowing freedom in the management of the Publicly Listed Subsidiaries and maintaining their stock market listings will contribute to maximizing the corporate value of the NEC Group.

The significance of owning Publicly Listed Companies is as follows.

- **NESIC**
  NESIC is a core NEC Group company that is primarily involved in ICT system design and construction, as well as providing support services such as operating, monitoring and outsourcing for these systems, with customers in Japan and overseas that include government offices and telecommunications carriers.
  NESIC’s relationship with the Company involves providing ICT systems for customers that utilize the Company’s information and communication technology assets. Moreover, the Company’s business regarding the business segment of Network Services Business, work in cooperation with NESIC’s support services. However, for NESIC to expand its business—through investing management resources in developing new solutions and finding new customers—and to increase synergies with the Company, the Company believes it is desirable that NESIC has independent decision-making and financing measures. The Company believes that there is sufficient rationale for maintaining NESIC as a publicly listed subsidiary after a comprehensive review of factors that include the potential of a public listing to help maintain or increase employee motivation and to secure excellent human resources.

- **JAE**
  The main businesses for JAE are connectors, user interface-related devices, aviation electronics, and the manufacture and sales of electronic parts.
  JAE’s relationship with the Company involves efforts to commercialize new technology by integrating the Company’s technology-related assets with JAE’s mass production technologies. Moreover, this relationship also involves cooperating with the Company’s business regarding the business segment of Public Infrastructure Business, which includes supplying products to the Company. However, maintaining autonomy and independence, and keeping the ability to secure funds from the capital market are preferable for JAE in terms of its business structure. The Company believes that there is sufficient rationale for maintaining JAE as a publicly listed subsidiary after a comprehensive review of factors that include maintaining a public listing as a means to maintain JAE’s global customer base, and the potential of a public listing to help maintain or increase employee motivation and to secure excellent human resources.

To ensure the effectiveness of the governance of the Publicly Listed Subsidiaries, the Company dispatches the appropriate personnel to the Publicly Listed Subsidiaries, regularly exchanges information, and oversees the compliance system, among other measures. The Company also takes the following measures to maintain the independence of the Public Listed Subsidiaries while remaining mindful of minority shareholders.

- The management of each subsidiary determines the candidates for Director.
- Publicly Listed Subsidiaries appoint a certain number of Independent Outside Directors and Independent Outside A&SBMs, and ensure the transparency of the management of the Publicly Listed Subsidiaries.
- The decision-making of the Publicly Listed Subsidiaries is based on the independent management decisions of each subsidiary’s Board of Directors.
- If a conflict of interest arises between the Company and minority shareholders, the necessary measures are taken to ensure the independent decision-making of the Publicly Listed Subsidiaries.

In addition, for business transactions between the Company and the Publicly Listed Subsidiaries, the Company maintains sound relationships with the Publicly Listed Subsidiaries such as by determining the transaction terms based on market prices through negotiations as needed.

Together with the tender offer conducted in January 2017 for shares in JAE, the Company concluded a memorandum of understanding regarding the involvement in JAE’s management after it became a consolidated subsidiary. An overview of the memorandum is as follows:

(i) The Company’s voting rights in the subsidiary will be 51% or less;
(ii) The Company will maintain the stock market listing of JAE’s shares, and the subsidiary will carry out autonomous management as a listed company; and

(iii) The Company will give sufficient consideration to the exercising of rights by minority shareholders of JAE.

The Company will continuously evaluate the policy of holding shares in the Publicly Listed Subsidiaries, and the Company will keep holding the shares of the Publicly Listed Subsidiaries as long as they meet the above preconditions and it can be determined that they contribute to maximizing the corporate value of the NEC Group. At this time, the Company does not plan to newly list the shares of other subsidiaries on stock markets.

Cooperation among A&SBMs, Accounting Auditors and Internal Audit Departments

The A&SBMs are taking steps to strengthen cooperation with the internal auditing division. These steps include receiving reports and exchanging opinions with the internal auditing division on audit results regularly or as necessary, as well as receiving reports from the same division on the status of operation of the “Compliance Hotline” (including the status of operation of compliance hotlines of the Company’s subsidiaries), a compliance hotline for employees and contractors to report issues concerning possible breaches of corporate ethics, compliance and other similar matters. The A&SBMs are also stepping up cooperation with the Accounting Auditors, such as by receiving audit plans and briefings on financial audits covering status reports on their audits, as well as on audits of the internal control systems based on the
Financial Instruments and Exchange Act, and exchanging opinions on their audits. Moreover, the Company arranges regular meetings among A&SBMs, the internal auditing division and the Accounting Auditors.

**Matters relating to Independent Directors/ A&SBMs Updated**

The Company has designated all Outside Directors/A&SBMs that qualify as Independent Outside Directors/A&SBMs based on the Company’s independency standards as Independent Directors/A&SBMs.
The Company judges their independency from the standard defined by Tokyo Stock Exchange and the “Independence Criteria for Outside Directors and Outside A&SBMs” established by the Company. With respect to categories h and j for “Relationship with the Company,” in the event that “Immaterial Criteria for the judgement that the Relationship with the Company is unlikely to affect shareholders’ decision concerning the exercise of voting rights” is satisfied, the description thereof is omitted.

“Independence Criteria for Outside Directors and Outside A&SBMs” and “Immaterial Criteria for the judgement that the Relationship with the Company is unlikely to affect shareholders’ decision concerning the exercise of voting rights” established by the Company are as follows:

The Company declares that an Outside Director and an Outside A&SBM who is not fallen under any of the following description is independent of the Company.

(1) Presently or at any time within the past 3 years, any of his or her relative within the second degree of relationship holds or held a position equal to or higher than a general manager at the Company or its subsidiary.

(2) Presently or at any time within the past 3 years, the person is or was Executing person of a major business partner*1, or any of his or her relative within the second degree of relationship is or was an Executing person at a major business partner (if such a person holds or held a position equal to or higher than a position equivalent of a general manager at the Company).

(3) In any one of the past 3 fiscal years, the person or any of his or her relative within the second degree of relationship has received financial compensation of 10 million yen or more (excluding remuneration for Directors or A&SBMs) from the Company.

(4) Presently or at any time within the past 3 years, the person or any of his or her relative within the second degree of relationship has belonged to the Accounting Auditors of the Company.

(5) Presently or at any time within the past 3 years, the person or any of his or her relative within the second degree of relationship has been an Executing person of an organization that has received a significant amount of donation from the Company*2.

*1 Major business partner:
(1) A business partner with the total amount of transactions with the Company (consideration for offering products/services and procurements) exceeding 2% of sales of the Company or such business partner; or,
(2) A business partner to whom the Company owes the average annual amount exceeding 2% of total assets of the Company.

*2 Organization that has received a significant amount of donation from the Company:
An organization that has received from the Company a significant amount of donation exceeding the greater of 10 million yen, or 2% of the gross income of such organization, in any one of the past 3 fiscal years.

“Immaterial Criteria for the judgement that the Relationship with the Company is unlikely to affect shareholders’ decision concerning the exercise of voting rights”

With respect to categories h and j for “Relationship with the Company,” the Company omits the description of “Relationship with the Company” in the event that an Outside Director or an Outside A&SBM is an Executing person that is fallen under the following categories.

(1) Executing person of a business partner with the total amount of transactions with the Company (sales or procurements of products/services) not exceeding 1% of the sales of the Company nor the sales of such business partner in the previous fiscal year.

(2) Executing person of a business partner to whom the Company owes the average annual amount of the previous fiscal year not exceeding 1% of the total assets of the Company.

(3) Executing person of an organization that has received from the Company a donation not exceeding 1% of the gross income of such organization in the previous fiscal year.

The Company has 6 Outside Directors (5 of whom are Independent Directors) out of 12 Directors, and 3 Outside A&SBMs (3 of whom are Independent A&SBMs) out of 5 A&SBMs. While the Company believes that the Company sufficiently ensures objectiveness and transparency of governance with the composition of Outside Directors and A&SBMs in its Directors and A&SBMs, the Company will make continuous efforts to secure a sufficient number of Outside Directors including a raise in
the ratio of Independent Outside Directors, comprehensively taking into account changes in the business environment and others.

<th>Incentive Policies for Directors</th>
<th>Performance-linked Remuneration</th>

</tbody>
</table>

(1) Performance-based remuneration
Performance-based remuneration consists of bonuses and a performance-based stock compensation (the “Performance-based Stock Compensation”).

(2) Policy on Ratio to Remuneration Amounts of Individual Directors
The following table shows the approximate ratio of each type of remuneration to the amounts of remuneration for individual Directors.

Inside Directors(Executive Directors)
- Basic remuneration: 50%
- Bonus: 30%
- Performance-based Stock Compensation: 15%
- the stock compensation in which stock equivalent to a pre-determined monetary amount is granted (the “Fixed Stock Compensation”): 5%

Inside Directors(Non-executive Directors)
- Basic remuneration: 80%
- Bonus: 0%
- Performance-based Stock Compensation: 15%
- Fixed Stock Compensation: 5%

Outside Directors
- Basic remuneration: 100%
- Bonus: 0%
- Performance-based Stock Compensation: 0%
- Fixed Stock Compensation: 0%

(3) Indicators Used for Performance-based Remuneration, Reason for Selection thereof and Method for Determining the Amount of Performance-based Remuneration

(i) Bonuses
Bonuses have 2 components: a component linked to key performance indicators regarding the consolidated business results of the NEC Group during the fiscal year to which the bonus applies (“the Group-wide Performance-based Component”), and a component linked to the degree to which performance targets are achieved in the businesses overseen by each Director (“the Business-unit Performance-based Component”). The ratio between these 2 components is as follows for each job title:

Chairman of the Board and Vice Chairman of the Board (only when the Chairman of the Board and Vice Chairman of the Board are also an Executive Director) / President
- Group-wide Performance-based Component: 100%
- Business-unit Performance-based Component: 0%

Senior Executive Vice President and Member of the Board
- Group-wide Performance-based Component: 60%
- Business-unit Performance-based Component: 40%
  (Fiscal year budget portion: 20%, Mid-term plan portion: 20%)

Executive Vice President and Member of the Board
- Group-wide Performance-based Component: 40%
- Business-unit Performance-based Component: 60%
  (Fiscal year budget portion: 30%, Mid-term plan portion: 30%)

Senior Vice President and Member of the Board
- Group-wide Performance-based Component: 30%
Indicators for the Group-wide Performance-based Component and the Business-unit Performance-based Component, reason for selection thereof and method for determining the amount of bonuses are as follows:

1) Indicators for the Group-wide Performance-based Component and Reason for Selection
The performance indicators for this component are the NEC Group’s consolidated revenue, operating income and free cash flows in the applicable fiscal year. These indicators were selected taking account of their importance concerning the NEC Group’s management strategies and suitability in determining the achievement level of performance targets.

2) Indicators for the Business-unit Performance-based Component and Reason for Selection
The performance indicators for this component are budget indicators and mid-term plan indicators. Budget indicators are consolidated revenue, operating income, free cash flows, etc. in the applicable fiscal year in the business units overseen by each Director. These indicators were selected because they allow the appropriate evaluation of the achievement level of performance targets for each fiscal year in individual business units overseen by relevant Directors.

Mid-term plan indicators are used to evaluate activities for accomplishing the goals set in the Mid-term Management Plan. The indicators are fiscal year performance targets set for individual Directors based on a discussion between each Director and the President, and the President evaluates their achievement level by interviewing the Director. To ensure that evaluations are done properly, evaluation results are reported to the Nomination and Compensation Committee.

(*) For Directors who oversee operations other than business units, indicators for the Business-unit Performance-based Component are the NEC Group’s consolidated revenue, operating income, free cash flows, etc.

3) Determination Method of Bonus Amounts
The Nomination and Compensation Committee discusses reports concerning results of evaluations using indicators for the Group-wide Performance-based Component and the Business-unit Performance-based Component and the bonus amounts which are calculated using the following formula. Then, based on the results of these discussions, the Board of Directors determines an aggregate bonus payment for all Directors eligible to receive a bonus.

The amount of each bonus is set between 0% and 200% of the standard amount determined for each job title, based on the achievement level of performance targets.

<Calculation formula>

(Note 2) Calculated using the indicators for the Group-wide Performance-based Component in the preceding section 1)
(Note 3) The ratio of the Business-unit Performance-based Component in the preceding section (i)
(Note 4) Calculated using the indicators for the Business-unit Performance-based Component in the preceding section 2)

(ii) Performance-based Stock Compensation
Indicators for the Performance-based Stock Compensation, reason for selection thereof and method for determining the amount of the Performance-based Stock Compensation are as follows:

1) Indicators and Reason for Selection
The Performance-based Stock Compensation is linked to a single fiscal year. Indicators for Performance-based Stock Compensation are the NEC Group’s consolidated revenue, adjusted operating profit and adjusted net profit attributable to owners of the parent in the applicable fiscal year.

The indicators were selected by considering their importance concerning the NEC Group’s mid- to long-term management strategies as well as for reinforcing the commitment and activities of Directors to contribute to maximizing corporate value from a mid- to long-term perspective and giving back to shareholders.
2) Determination Method of Compensation Amount

Performance-based Stock Compensation is calculated by using the following formula. The number of shares granted for the compensation is set between 0% and 100% of the standard number of shares determined for job title, based on the achievement level of performance targets.

<Calculation formula>

“Number of granting shares based on the applicable Directors’ job titles (Note 1)” x “Performance-based allotment rate (Note 2),”

(Note 1) “the standard amount of stock compensation on the applicable Directors’ job titles (*)” / “average value of closing price of the Company shares on the Tokyo Stock Exchange in the fiscal year immediately preceding the applicable fiscal year”

(*) The basic remuneration of each Director is multiplied by the factor determined for each title. However, for some Executive Directors, the standard amount of basic remuneration of each Executive Director is multiplied by the factor determined for each title.

(Note 2) the level of the achievement of consolidated revenue in the applicable fiscal year x 30% + the level of the achievement of adjusted operating profit in the applicable fiscal year x 40% + the level of the achievement of adjusted net profit attributable to owners of the parent in the applicable fiscal year x 30%

Policy on Determining Remuneration Amounts and Calculation Methods

[Established]

Disclosure of Policy on Determining Remuneration Amounts and Calculation Methods [Updated]

(1) Basic policy on the Remuneration for Directors and Methods on Determining the Level of Remuneration

For the purpose of continuously improving corporate value and strengthening its competitiveness, the Company’s basic policy on the remuneration for Directors is to set a level and structure appropriate for a
global company which enables the Company to secure excellent human resources and serves as an incentive to improve performance of the NEC Group. In order to ensure objectiveness and properness of the remuneration for Directors, the level of the remuneration is determined on the result of the third party’s investigation regarding the remunerations of other companies whose business contents and scale are similar to those of the Company.

(2) Policy on Determining Remuneration Amounts of Directors and Calculation Method

Remuneration for Directors of the Company consists of basic remuneration, bonuses and stock compensation (the Performance-based Stock Compensation and the Fixed Stock Compensation). The policy on the remuneration for Directors and remuneration plan for Directors based on such policy are determined by the resolution of the Board of Directors, based on the results of their deliberation from an objective viewpoint by the Nomination and Compensation Committee, the majority of the members of which are Independent Outside Directors (one of whom is the chairperson).

**Basic remuneration**

Basic remuneration is fixed-monthly payments that do not exceed the limit established by resolutions of the General Meetings of Shareholders, and is determined separately for each job title and for Inside Directors and Outside Directors.

However, for some Executive Directors, basic remuneration increases or decreases depending on the performance of these individuals in each fiscal year. The Board of Directors determines for each job title the standard amount of basic remuneration and the range of fluctuations. Performance indicators include non-financial indicators such as practical implementation of our “materiality”—priority management themes from an ESG perspective.

**Bonuses**

Bonuses serve as short-term incentives to achieve performance targets in each fiscal year for the sustained growth of the NEC Group. Executive Directors are eligible to receive these bonuses at a certain time every year. The limit for total payments of these bonuses is determined by a resolution of the General Meetings of Shareholders. Individual bonus payments are determined by adjusting the standard bonus amount determined for each job title of Directors to reflect the achievement level of performance targets.

**Stock compensation**

Stock compensation is granted to Inside Directors and consists of the Performance-based Stock Compensation and the Fixed Stock Compensation.

(a) **Performance-based Stock Compensation**

The Performance-based Stock Compensation serves as a mid- to long-term incentive to further raise Directors’ awareness for contribution to improvement in the Company’s mid- and long-term performance and its corporate value, by clarifying the link between remuneration of Directors and the Company’s performance as well as value of Company shares. The Performance-based Stock Compensation is linked to a single fiscal year. Following the end of each applicable fiscal year, the number of points granted to a Director is determined according to job title and the level of achievement of performance targets in the fiscal year. In principle, Directors receive a number of shares (however, part of which shall be an amount of cash equivalent to the Company shares as converted and disposed of) corresponding to the number of points after 3 years from the beginning of the applicable fiscal year.

(b) **Fixed Stock Compensation**

The Fixed Stock Compensation further clarifies the link between remuneration for Directors and the value of Company shares by increasing the ratio of stock compensation in the remuneration for Directors, and encourage Directors to operate the business with a higher consciousness of the Company’s share price by sharing with shareholders not only the benefits of rising share prices but also the risks associated with falling share prices. The Fixed Stock Compensation applies to the period beginning on the day of each Ordinary General Meeting of Shareholders and ending on the day of the Ordinary General Meeting of Shareholders in the following year. Following the end of this period, Directors receive points corresponding to monetary amounts that do not exceed the limit established by resolutions of the General Meetings of Shareholders. In principle, Directors receive a number of shares (however, part of which shall be an amount of cash equivalent to the Company shares as converted and disposed of) corresponding to the number of points after 3 years from the beginning of the applicable period.

(c) **Certain Restrictions of Stock Compensation Plan**
Under the stock compensation plan, there are certain restriction provisions. These enable the Company to take action in cases where compliance breaches or inappropriate accounting treatment (including the submission of amended reports and amendment of past financial statements) have been confirmed. In such cases, after deliberation by the Nomination and Compensation Committee and a resolution by the Board of Directors, the Company may withhold all or part of the rights to receive a grant of the Company’s shares prior to the grant of the Company’s shares; or after the grant of the Company’s shares, the Company may demand the return of all or part of the granted shares of the Company (including an amount of cash equivalent to the Company’s shares as liquidated and disposed of paid instead of the Company’s shares).

**[Supporting System for Outside Directors and/or A&SBMs]**

Aiming to ensure that these roles and functions expected of Outside Directors and Outside A&SBMs are properly fulfilled, the Company has been working to enhance deliberations by the Board of Directors through such means as briefing Outside Directors and Outside A&SBMs in advance on important agenda to be put forward to the meetings of the Board of Directors. The Company also provides support to Outside Directors and Outside A&SBMs in order to facilitate their understanding of the NEC Group, such as by organizing tours of business sites and exhibitions of the Company and its subsidiaries. At the forum, having lectures by the Company’s President and an expert who is well-versed in workplace harassment, the Company also awarded business divisions and overseas consolidated subsidiaries that had made remarkable efforts to promote compliance. During the fiscal year ended March 31, 2021, the Compliance Promotion Session was held to strengthen compliance promotion activities at the NEC Group. At the Session, information was shared with principal consolidated subsidiaries in Japan on matters such as the status of the Company’s compliance activities and priority risks to be addressed (risks that require new measures including improvement of existing measures to be addressed across the NEC Group, from the perspective of the magnitude of the impact on corporate business and the need for additional measures) in the next business period. In addition, opinions were exchanged to strengthen compliance activities by the NEC Group as a whole. Web-based training programs related to compliance, which are held annually, were also conducted in the fiscal year ended March 31, 2021, in which all employees of the Company declared that they would ensure compliance and actions that should be taken to make compliance embedded in the culture of the NEC Group. The Company formulated “the Compliance Hotline Rules” to enable early detection and resolving of misconducts through promoting consulting and reporting (internal reporting) to the “Compliance Hotline,” an internal reporting system. The Rules help enhance the system to protect those who made reports or cooperated with investigations. The number of reports to the “Compliance Hotline” reached 76 during the fiscal year ended March 31, 2021. The internal auditing division or other relevant divisions in the Company investigated these internal reports and took necessary measures in response, depending on the details of reports.

With regard to risk management, the Risk Control and Compliance Committee and the Executive Committee deliberated on and selected 4 issues, namely, “risks associated with inadequate accounting processes at overseas subsidiaries,” “risks associated with confidential information management,” “risks of privacy violations due to the adoption of new technology,” and “harassment-related risks” as priority risks to be addressed by the NEC Group in the fiscal year ended March 31, 2021. After formulating and implementing countermeasures, the results were reported to the Board of Directors. In addition, the Company has in place a system where compliance violations are reported to the Risk Control and Compliance Committee, upon their occurrence. The outline of compliance violations is reported to the Board of Directors meeting held in the same month, and thereby information is quickly shared with the Board of Directors. The Company has in place a system where general managers of business divisions take ownership and devise and implement appropriate measures according to the division’s compliance risk characteristics. The Compliance Division periodically confirms compliance risks selected by general managers of business divisions, annual improvement plans as well as the progress and results thereof, and provides support to their efforts as necessary.

With regard to group management, the Company makes efforts to integrate a framework for the management of its subsidiaries for total optimization of group companies and maximization of the value of group companies based on the NEC Group Management Policy, which sets out the NEC Group’s group management. As part of this approach, chief officers in charge of key cross-group functions promote the establishment of a framework to manage the performance of duties at overseas subsidiaries within their authority so that the NEC Group’s common policies, business processes, and infrastructure can be introduced immediately to the overseas subsidiaries.

With regard to audits by A&SBMs, A&SBMs receive reports on the status of the execution of duties from Directors, corporate officers and employees of the Company and its subsidiaries. In addition, A&SBMs also periodically receive reports from the internal auditing division regarding the status of operation of the “Compliance Hotline,” and the internal reporting systems at subsidiaries, as well as the status of internal audits. Furthermore, A&SBMs periodically receive reports on financial audits from the Accounting Auditors and exchange opinions with them. They also strive to maintain close links with the Accounting Auditors and the internal auditing division by periodically holding meetings with them.
