Information Disclosure Policy

Basic Policy

Aiming to be a "Social Value Innovator," NEC Corporation considers communication with stakeholders to be a critical initiative because communication provides an opportunity for us not only to recognize our obligation to carry out our social responsibility but also to understand the fundamental issues of our customers and society. Our commitment to promoting dialogue and co-creation with stakeholders is embedded in the concept of "Orchestrating" as stated in our Purpose, "Orchestrating a brighter world."

We use our sustainability website and sustainability reports (PDF) as tools to enable this communication, disclosing the sustainability initiatives and their results as viewed from an environmental, social, and governance (ESG) perspective. NEC's integrated report also presents the essence of our sustainability reports, mainly with a focus on "materiality," as well as the essence of our securities report, which discloses our financial activities.

Scope of This Report

In principle, the content relates to NEC Corporation in certain sections but also includes subsidiary companies and affiliates in other sections. "NEC" refers to NEC Corporation and its subsidiary companies, unless otherwise noted.

When referring to fiscal years, "fiscal 2022" refers to the fiscal year ended March 31, 2022.

Disclosure Format

• Sustainability Website and Sustainability Report (PDF)

NEC regularly discloses the latest information on its sustainability activities via its sustainability website. Furthermore, it emphasizes detailed coverage of information to ensure conformance with international reporting initiatives such as GRI, while addressing the needs of sustainability professionals such as ESG research institutions, the news media, universities, and NPOs/NGOs.

The sustainability report (English version) posted on the sustainability website is published each year in PDF format. The previous sustainability report in English was published in September 2021.

• NEC Integrated Report

NEC Integrated Report explains our management strategies, which are aimed at promoting the sustainable growth of NEC and society as a whole, from both financial and non-financial perspectives. NEC has published integrated annual reports containing both financial and non-financial information since fiscal 2014. In July 2018, NEC changed the name of the report to "Integrated Report," upon having defined its materiality.

Reference Guidelines

With the aim of achieving conformance with international reporting initiatives, NEC reports on its sustainability activities with reference to the following guidelines:

- Global Reporting Initiative (GRI)'s Sustainability Reporting Guidelines Standards
- United Nations Global Compact (UNGC)
- Sustainability Accounting Standards Board (SASB)
- International Organization for Standardization (ISO) 26000
- Japan's Ministry of Economy, Trade and Industry (METI)'s "Guidance for Collaborative Value Creation"

Third-party Assurance

Achievements marked with have received third-party guarantees or verification.
