NEC Group Responsible Mineral Procurement Survey Report for fiscal 2026

NEC has established the "NEC Group Responsible Mineral Procurement Policy" and is committed to conducting responsible mineral procurement activities to ensure that such activities do not contribute to conflicts or human rights abuses.

https://www.nec.com/en/global/purchasing/data/en2_sc_csr_guideline_4e.pdf (47page)

NEC conducted the Responsible Mineral Procurement Survey in fiscal 2026 as follows.

The survey was conducted using the Responsible Minerals Initiative's survey report templates (CMRT, EMRT) for suppliers.

In fiscal 2026, a survey was conducted on suppliers who account for approximately 60% of the consolidated procurement amount from April 1, 2024, to March 31, 2025.

As a result, approximately 83% of the suppliers surveyed responded to the survey.

For further information please see our ESG Databook.

<https://www.nec.com/en/global/sustainability/report/index.html>

We are once again requesting cooperation in our survey from those suppliers who have not yet responded. Additionally, we have reviewed the responses received from suppliers and are taking the following actions:

- If the responses from suppliers do not meet the due diligence standards requested by NEC, we are requesting a re-survey to confirm the usage status of specific smelters.
- For suppliers using high-risk smelters subject to sanctions by the U.S. Department of the Treasury's Office of Foreign Assets Control (OFAC) or similar entities, we are requesting their exclusion from the supply chain.
- When we receive a request from a customer to investigate a specific smelter, we request the suppliers using that smelter to conduct a re-investigation of its actual usage.

NEC will continue its efforts to identify smelters and understand their actual status within the supply chain.

Looking forward, we are staying informed on emerging initiatives by the Responsible Minerals Initiative (RMI) to continually enhance our ability to meet regulatory requirements such as the EU Conflict Minerals Regulation and the U.S. Dodd-Frank Act. This includes monitoring updates about additional minerals and the AMRT, which addresses minerals of concern beyond those covered by the CMRT and EMRT.

Additionally, based on the results of the investigation, we have listed below a list of smelters that comply with the Responsible Minerals Assurance Process (RMAP) evaluation protocol certified by RMI.
